DURING AN INSPECTION AND/OR EVALUATION OF YOUR Food Establishment

THE FOLLOWING CONDITIONS WERE OBSERVED AND MUST BE CORRECTED:

I visited this facility on March 17, 2017 to conduct a scheduled follow-up inspection. The routine inspection was conducted on March 2, 2017. This allowed 15 days to correct the violations noted on the inspection form.

Upon arrival, staff explained that employees have been out sick. She was not sure if the violations were corrected.

I began my inspection by observing the violations noted on page 2 of the routine inspection form. Only two of the twelve noted items were corrected. It was decided to not continue the follow-up inspection and to reschedule for another day.

Please have all the violations that were noted on the routine inspection corrected by the rescheduled follow-up date of March 28. This allows another 11 days to complete the work, giving a total of 26 days, more than adequate time.

NOTE: there was not a designated person in charge of the facility while the manager was out. Please make sure there is always a person who is knowledgeable about food safety in charge at the facility at all times.
