Milk from milk cooler		39			
True refrigerator		36			

Code Reference	PRIORITY ITEMS Priority items contribute directly to the elimination, prevention or reduction to an acceptable level, hazards associated with foodborne illness or injury. These items MUST RECEIVE IMMEDIATE ACTION within 72 hours or as stated.	Correct by (date)	Initial
3-501.16A 2	Ham, hard boiled egg and cottage cheese were measured at temperatures of 49, 47, and 48 F respectively on the salad bar located in the dining area. Potentially hazardous foods held refrigerated shall be maintained at a temperature of 41F or lower. The foods are held in uncovered plastic containers which are inserted into an air cooled well. According to the manager, this food was placed in cold holding from the walk-in cooler shortly before the time of arrival (10:16am). Upon notification of the temperature of the food, the manager remediated by reducing the cooling temperature of the cold holding unit and by filling the cold well full of ice to contact the food containers. The food temperatures were measured after the addition of ice and were at 42-44F. The foods were on the bar for approximately one and a half hours. The foods were placed back in the walk-in cooler. Please ensure that the salad bar cooler is capable of holding potentially hazardous foods at 41F or less before continuing it's use for this purpose.	Correct prior to continued use of the unit.	SS
7-201.11B	Soap infused steel wool pads were observed stored in a perforated plastic basket beside clean equipment on the shelf above the three compartment sink. Toxic materials shall be stored so they cannot contaminate food, equipment, utensils, linens and single service items. COS by moving the soap pads away from the equipment.	COS	

Code Reference	CORE ITEMS Core items relate to general sanitation, operational controls, facilities or structures, equipment design, general maintenance or sanitation standard operating procedures (SSOPs). These items are to be corrected by the next regular inspection or as stated.	Correct by (date)	Initial
	No core violations were observed during this visit. Note: This facility uses a hot water sanitizing mechanical dishwasher. The dishwasher was observed to operate at a temperature adequate to provide sanitation to the equipment. The color-indicating thermal label used to test the dishwasher will be attached to the Health Center copy of the inspection report.
