Note: 3-501.16A	The temperature of the shredded cheese was unable to be ascertained on the salad bar. Cubed ice is used on the salad bar to maintain potentially hazardous foods (PHF's). Shredded cheese was observed at 40F in the True 2 door refrigerator in the kitchen prior to setting up the salad bar. PHF's must be held at or below 41F or the use of time as a public health control, according to 3-501.19 of the Missouri Food Code, must be employed. Please ensure that PHF's are maintained at or below 41F OR use time as a public health control for maintaining PHF's per 3-501.19 of the Missouri Food Code. (If time as a control is used, written procedure must be developed for tracking PHF's and all PHF's must be discarded after service.)	7-27-16	cb
2-201.11E	A copy of the employee illness policy was not available during this visit. Please provide a copy of the policy that requires food employees and conditional employees to report to the person-in-charge information about their health and activities as they relate to diseases that are transmissible through food. Also, the policy must describe when and under what conditions a food employee may be restricted, excluded and the procedures for reinstating a food employee. A copy of the US FDA Employee Health and Personal Hygiene Handbook should be consulted for review and development of an employee illness policy. This booklet may be reviewed on-line. The US FDA Employee Health and Personal Hygiene Handbook may be utilized as the employee illness policy. If so, please download a copy and provide a written statement acknowledging the use of this handbook.	7-27-16

Note: 3-306.11 5-203.11A 6-501.111 B/C	Pre-packaged, single-use containers of peanut butter and jelly and slices of bread contained in individual packaging was observed on the self-service salad bar.	Prior to next season 7-27-16	CB
	The preparation of snow cones was observed occurring in the PX. A convenient handwashing sink was not available for use by food employees. (A handwashing sink was located in a restroom approximately 10-15 feet away). A convenient handwashing sink must be installed in the area in which the snow cones are prepared AND outside of the restroom OR the sale of snow cones be discontinued until a handwashing sink can be installed. The handwashing sink must be properly equipped with hot and cold running water via a mixing faucet, hand cleanser, handwashing signage, paper towels from a dispenser and a waste receptacle. In the interim, the handwashing sink in the restroom may be used for the remainder of the operating season. However, prior to next season, a handwashing sink must be installed within the PX or the preparation of snow cones and/or other foods may not occur. (Handwashing not observed in PX during visit). Rodent droppings were observed on the flooring in the public restroom area of the building. Rodent droppings were observed on the floor of the restroom in the PX. Rodent droppings were observed on the floor in the "caged storage area"/rear kitchen storage area. The presence of insects, rodents, or other pests must be controlled to minimize their presence on the premises. Please clean and remove all evidence of rodent activity throughout the building and intensify pest control measures working with your pest control operator AND ensure that all outer openings are sealed.

Note: 3-501.16A	The temperatures of refrigerated PHF's, being prepared for transportation to Camp Gamble, could not be ascertained prior to departure from this facility. Previously, some PHF's were observed above 41F when leaving this facility. Currently, this facility uses milk crates and an enclosed Penske rental truck without any means of refrigeration. The temperatures of PHF's must be maintained at or below 41F during transportation and storage. It is recommended that additional Cambros, insulated coolers, a refrigerated vehicle, etc. be employed to adequately protect PHF's. Further, PHF's held hot must be maintained at or above 135F during storage and transportation. It is recommended that heated food cabinets, Cambros, insulated coolers, etc. be employed.
