DURING AN INSPECTION AND/OR EVALUATION OF YOUR Food Facility (banquet hall)

THE FOLLOWING CONDITIONS WERE OBSERVED AND MUST BE CORRECTED:

I conducted an inspection of this facility that focused risk factors while volunteers and the owner prepared a meal for a charity (Relay for Life). A full routine inspection was conducted on November 2, 2016 during which there was no food preparation occurring. The following observations were made:

Temperatures, in degrees Fahrenheit:
 Stovetop: shrimp 201, rice 202
 Hot hold serving table: meat lasagna 167, jambalaya 142, rice 204, red beans 161, chicken lasagna 162 and 146, shrimp 143

3-201.11A According to owner, Ms. Straughn, all food is stored and prepared on-site except some desserts which are prepared by volunteers in their homes. Food shall be obtained from an approved source. Please ensure all food is obtained from approved sources, stored, and prepared on-site. COS This was discussed with Ms. Straughn who stated it can be arranged for the desserts to be made on-site.

6-301.11, 6-301.12, 5-205.11A: There was no soap or paper towels at the handwashing sink, and single-use items were stored in front of it. Handwashing sinks shall be supplied with soap and disposable towels via a sanitary dispenser, and shall be accessible at all times. CORRECTED ON SITE by discussion with staff, supplying towels, and soap, and moving single-use items. Please install a dispenser for the paper towels.

2-301.14, 2-301.15: Two workers were asked how they washed their hands. One stated she did not, the other said in the 3-vat sink. Workers shall wash hands only at a designated handwashing sink, and shall wash hands upon entering food prep or dispensing areas, when changing jobs, before putting on a new pair of single-use gloves, and after any activity that soils hands. Please ensure all workers know when, where, and how to wash hands correctly. COS by discussion with workers.

4-702.11: Dishes were observed being washed but not sanitized. Food-contact surfaces shall be sanitized after washing and rinsing. Please insure workers sanitizing all food-contact surfaces and use test strips to insure the correct concentration of chlorine is obtained in sanitizer solutions. COS by discussion with worker and preparing sanitizer solution in the sanitizing vat of the 3-vat sink. Please provide test strips.

INSPECTED BY Rose Mier <i>Rose Mier</i>	EPHS NUMBER 1390
