**SECTION #****OBSERVATIONS**

E6) A thermometer was not observed in the True freezer in the kitchen. Thermometers are required in all cold-holding units. COS by providing a thermometer.

F1) The spray bleach sanitizer present in the kitchen was measured at a chlorine concentration greater than 200ppm. Chlorine sanitizers provided through a spray bottle are required to be in the concentration range of 100 - 200 ppm. COS by remaking the sanitizer.

E16) Discard dates were not observed on a bag of cut lettuce, a container of cheese sauce, and a container of apple sauce stored in the True refrigerator in the kitchen. Potentially hazardous foods held refrigerated shall be marked with a discard date that is not more than six days after the date of preparation or opening. COS by discarding the lettuce. The cheese sauce and apple sauce were marked with the date that the product was opened. COS by marking the cheese sauce and apple sauce with a discard date.

E16) A container of facility-made pumpkin butter was observed in the True refrigerator in the kitchen. The pumpkin butter was marked with the date that it was made.
