3-305.11A	<p>A severe buildup of ice was observed on the interior ceiling and in areas on the floor in the US Cooler walk-in freezer. Pieces of plastic material had been placed over certain amounts of food stored in this unit and not all foods were covered. No ice was observed on food packaging during this visit. However, the potential for ice to come in contact with food packaging exists. Please cover all food items stored in this unit until the walk-in freezer is renovated at the end of the 2017-2018 school year. Please be advised that food shall be protected from contamination by storing food in a clean, dry location where it is not exposed to splash, dust, or other contamination. Please prevent ice from accumulating onto food boxes in the interim or store foods in a location not exposed to this water drippage.</p> <p>According to Mr. Alford, this walk-in freezer is to be renovated when the school year ends.</p>	Prior to 2018-2019 school year.
