6-501.12A	The floors throughout the kitchen area are excessively soiled with dirt, grime and grease; especially in grouted tile seams, below equipment, at the wall/floor juncture and on the cove molding. The deterioration of the grouted floor seams and various cracked and broken tiles has created a condition that prevents adequate cleaning. According to the manager, Scott Thieme, the store plans on regrouting the floor. A time of completion for this work has not been determined. Section 6-101.11 of the Missouri Food Code (Surface Characteristics of Physical Facilities) specifies that flooring surfaces of a food establishment shall be: "Smooth, durable, and easily cleanable for areas where food establishment operations are conducted." Please restore the floor in the kitchen and back-of-house area to a cleanable condition.	next routine
