Code Reference	PRIORITY ITEMS Priority items contribute directly to the elimination, prevention or reduction to an acceptable level, hazards associated with foodborne illness or injury. These items MUST RECEIVE IMMEDIATE ACTION within 72 hours or as stated.	Correct by (date)	Initial
5-403.11A	The on-site wastewater treatment system (OWTS) was observed during this visit. There was no evidence of surfacing sewage or sewage odor. The area of the septic tank is covered with pieces of sheet metal. The ground under the sheet metal appears to be depressed, indicating a collapsed tank. The tank is in need of replacing as it is no longer structurally sound. Please obtain an OWTS construction permit from the St. Francois County Health Center to begin the repair process. The system may not be replaced or repaired until a construction permit has been issued from this department.	ASAP Please call the health dept.	DLC
3-302.11A	Raw ground beef was stored on a shelf above produce in the kitchen Kenmore refrigerator. Raw animal-derived foods shall be stored below all other foods. Please hamburger below produce. COS by moving hamburger to lowest shelf. NOTE: no food preparation was observed during this visit.	COS	

Code Reference	CORE ITEMS Core items relate to general sanitation, operational controls, facilities or structures, equipment design, general maintenance or sanitation standard operating procedures (SSOPs). These items are to be corrected by the next regular inspection or as stated.	Correct by (date)	Initial
NOTE	There was very little water that streamed from the sink faucet in the men's bathroom and at the kitchen handwashing sink. Handwashing sinks shall have adequate amounts of hot and cold running water, supplied through a mixing faucet. Please repair so an adequate stream of water is available for handwashing. (Note: the screen filters may need to be cleaned).		DLC
6-202.11A	Daylight was observed below the east side entry door into the dining area. This door opened onto an enclosed porch area. The outside entry door was propped open. Outside entries shall be sealed against pest entry. Please seal interior door.	7/6/11	
4-601.11B, C	Debris build-up observed on inside of Kenmore oven, and grease observed on the dial area of the stove. Cooking equipment shall be cleaned at a frequency to prevent debris encrustation and build-up. Please clean oven and top of stove.	7/6/11	

EDUCATION PROVIDED OR COMMENTS

A line through an item on page one indicates the item was not observed or is not applicable.
